FEALAC

Forum for East Asia-Latin America Cooperation

The Forum for East Asia-Latin America Cooperation (FEALAC) is an inter-regional multilateral organization launched in 1999 with the aim to increase inter-regional cooperation and understanding between East Asia and Latin America.

The 36 member countries are Argentina, Australia, Bolivia, Brazil, Brunei, Cambodia, Chile, China, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Indonesia, Japan, Korea, Lao PDR, Malaysia, Mexico, Mongolia, Myanmar, New Zealand, Nicaragua, Panama, Paraguay, Peru, Philippines, Singapore, Suriname, Thailand, Uruguay, Venezuela and Viet Nam. (16 East Asian Countries, 20 Latin American Countries)

The FEALAC Cyber Secretariat was established in 2011 in order to increase cooperation and facilitate communication among member countries. It supports FEALAC member countries and the Forum in managing the official FEALAC website, hosting annual workshops, strengthening overall mechanism, enhancing visibility of FEALAC, working with the Working Group co-chairs for compiling and updating projects' database, and assisting host countries of FEALAC meetings, among others.

FEALAC Fact Sheet was launched by the FEALAC Cyber Secretariat in 2018 to provide an overview of macroeconomic indicators, trade, investment performance and any other meaningful data of FEALAC member countries.

In this book, 'East Asia' refers to the FEALAC East Asian Member Countries and 'Latin America' refers to the FEALAC Latin American Member Countries.

Table of Contents

1 FEALAC Macroeconomic Indicators

1-1. GDP 8
1-2. GDP per Capita 10
1-3. Real GDP Growth 11
1-4. Unemployment Rate 12

2 FEALAC Population

2-1. Total Population 16
2-2. Population of FEALAC member countries 18
2-3. Population in Urban Areas 20
2-4. Population in Rural Areas 21
2-5. Population Distribution by Age Group 22

3 FEALAC Trade Indicators

3-1. Trade Volumes of Goods (FOB/CIF) 26
3-2. Merchandise Trade Volume of East Asia from/to Latin America 28
3-3. Merchandise Trade Volume of Latin America from/to East Asia 30
3-4. Top 10 Export & Import Products by Value 32

4 FEALAC Investment Indicators

4-1. FDI Inflows and Outflows of FEALAC member countries 36
4-2. FDI Stock Amount of FEALAC member countries 38
4-3. Top 10 FDI Host Country in FEALAC 40
4-4. 2019 Doing Business Index of FEALAC 41
4-5. 2018 Competitive Industrial Performance Index of FEALAC 43

5 Others

5-1. Telecommunications Penetration Rates in FEALAC 46
5-2. Tourists Arrivals from the World to FEALAC 47
5-3. Global Competitiveness Index 2018 49
5-4. Gini Index 50
5-5. Global Innovation Index 2018 50
5-6. 2018 The Global Gender Gap Index 51
5-7. Gross Domestic Expenditure on R&D (GERD) as a percentage of GDP 53
5-8. School Enrollment ratio, tertiary (% gross) 55

FEALAC Trade Indicators

3-1. Trade Volumes of Goods (FOB/CIF)
3-2. Merchandise Trade Volume of East Asia from/to Latin America
3-3. Merchandise Trade Volume of Latin America from/to East Asia
3-4. Top 10 Export & Import Products by Value

3 FEALAC Trade Indicators

Trade data is based on the IMF Direction of Trade Statistics (DOTS) and UN Trade Statistics. The data, collected by the United Nations Statistics Division, are reported either in national currency or in United States dollars (USD). These data are converted in USD before being uploaded in UN COMTRADE. Annual data reported to the UN COMTRADE are incorporated in IMF DOTS for countries that do not report to the IMF.

3-1. Trade Volumes of Goods (FOB/CIF)

(Unit : USD millions)

* Tourists arrivals (overnight visitors) are the number of tourists who travel to a country other than that in which they have their usual residence for a period not exceeding 12 months. When data on number of tourists are not available, the number of visitors, which includes tourists, same-day visitors, cruise passengers, and crew members, is shown instead.

5-3. Global Competitiveness Index 2018

The Global Competitiveness Index (GCI) measures national competitiveness defined as the set of institutions, policies and factors that determine the level of productivity for long-term growth. Scale ranges from 0 to 100.

Rank	Country	Rank	Country
2	Singapore	64	Panama
5	Japan	72	Brazil

5-6. 2018 The Global Gender Gap Index

The Global Gender Gap Index benchmarks national gender gaps on economic, education, health and political criteria, and provides country rankings that allow effective comparison across regions and income groups. The index examines the gap between men and women across four fundamental categories (subindexes): Economic Participation and Opportunity, Educational Attainment, Health and Survival, and Political Empowerment. For all subindexes, the highest possible score is 1 (gender parity) and the lowest possible score is 0 (imparity). A simple average of each subindex score is the overall Global Gender Gap Index score.

Country	Global Index		Economic Participation and Opportunity	Educational Attainment	Health and Survival	Political Empowerment
	Rank	Score (0-1)	Score (0-1)	Score (0-1)	Score (0-1)	Score (0-1)

5-7. Gross Domestic Expenditure on R&D (GERD) as a percentage of GDP

Gross domestic Expenditure on R&D (GERD) is defined as the total expenditure (current and capital) on R&D carried out by all resident companies, research institutes, university and government laboratories, etc., in a country. It includes R&D funded from abroad, but excludes domestic funds for R&D performed outside the domestic economy. All percentage is rounded to two decimal points and the average percentage for each continent is calculated when more than half of member countries' data are available.

GERD as a percentage of GDP for FEALAC Latin America countries

5-8. School Enrollment ratio, tertiary (% gross)

School enrollment ratio (tertiary) is the ratio of enrollment, regardless of age, to the population of the age group that officially corresponds to the tertiary education. Tertiary education, whether or not to an advanced research qualification, normally requires, as a minimum condition of admission, the successful completion of education at the secondary level. A high ratio in this data may reflect a substantial number of overage students enrolled in tertiary education because of repetition or late entry rather than a successful education system. All percentage is rounded to two decimal points.

School Enrollment ratio for FEALAC Latin America countries
